

Auguste Garufi

Artist Bio

Auguste Garufi was born in Utica, New York. He has a studio in Brooklyn, New York, where he works daily. Auguste describes his work as an “offering”. When he is not working, he tries *not* to make anything and instead searches for what he does not know. “I am sharing an aligned point of entry into the universe”. Auguste chooses materials based on what is needed to balance his work. The work communicates it’s own meaning and purpose without his insistence. Auguste believes his job is to listen.

Artist Statement

and common alike in so far as we are
visible i will go on writing in portrait and
salt
of what silence means widening from turn to
turn a momentary light in the darkness of
each endless fall revealed there i wander
listening alone here yet not forgetting what
immeasurable fragments that i am still to
know

Exhibition History
